Mobile Voice and Video Extension

UNIVERGE ST500 Smartphone Client

Smart mobile extension for your smartphone

Take the power of the ST500 with you at work, at home and anywhere in-between while not being tied to your desk.

NEC's UNIVERGE ST500 is developed for Apple iPhone, iPad and Android smart devices lets you leverage native contact lists to make and receive voice and video calls. Simply connect to Wi-Fi or use your mobile data (3G/4G) to handle your calls.

The ST500 simplifies your operation by one number, merging your call history and work voice mail.

GET IT ON Google Play

Download on the App Store

Application Features

> Integrates into your smartphone contacts
> Complete call history (grouped by contact for Missed, Incoming, Outgoing calls)
> Hands-free mode
> Bluetooth headset support

> Hold / Transfer / Conference
> Call park
> Call pickup
> Call forward (All, Busy, No Answer)
> Call hunt groups

*Only available to corporate Wi-Fi network users, not available to remote clients.

Technical Details	ST500
Smart Phone OS	iOS 11.0.3+ or Android 4.0.3+ (4.4 for video)
Communications Platform	SL2100 R1.5 or later
	SV9100 R8 or later
	SV9300 V5 or later
	SV9500 V5 or later
Connectivity	Standard SIP
Voice Codecs	OPUS, G.722.1, G.711, G.722, G.729a
Video Codec	H.264 / AVC

Additional Information

The ST500 is available on your NEC Communications Platform but requires an activation code that you can obtain from your NEC representative. It may also require spare license capacity on your NEC Communications Platform to connect as a standard SIP extension. When ST500 is connected from outside the corporate Wi-Fi network, a Session Border Controller can be used.
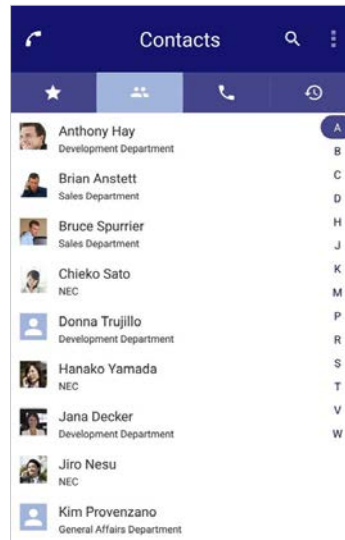

Note: License is required to activate on Communications Platform.

GT890 VIDEO PHONE

ENHANCED USER EXPERIENCE

The GT890's user interface is so intuitive that little to no training is required. The icons are easily recognizable and provide quick access to the available features and functions. Just lifting the handset, automatically displays the built-in Dialler. The keys are large and easily readable – so less chance of mistakes. Once a number is entered, you can choose to make an "Audio Call" or "Video Call" or, during a call, switch from auto to video. Change from handset to speaker with a simple tap of the "Media" button. The Dialler screen also gives access to a keyboard to enter a new contact in your directory. Once on a call, there is one-touch access to conference in others, mute the line, pull up the keypad and more.

INSTALLATION AND CONFIGURATION MADE EASY

The GT890 is easy to install and comes preloaded with the QR Code application that allows the administrator to select required configuration data to be applied to other GT890 phones.

AT A GLANCE

> Full 7-inch (1024x600) capacitive five-finger multi-touch display
> Built-in advanced mega-pixel camera with privacy shutter for HD video calling/conferencing
> 7-way audio- and 3-way HD audio and video conferencing
> Built-in Bluetooth® for syncing mobile devices' contact lists and call history
> Gigabit network speed and innovative telephony functionalities Android™-based operating system
> Open interface for custom application development
> Wi-Fi support enables wireless network connection for placement flexibility and Hot Spotting
> Built-in PoE/PoE+ for power and network connectivity
> Speakerphone with HD acoustic chamber, advanced echo cancellation and excellent double-talk performance
> TLS and SRTP

USER EXPERIENCE TAKEN TO A NEW LEVEL

With its intuitive interface and capacitive five-finger multi-touch display, it takes the user's experience to a new level.

Built-in Wi-Fi
Integrated dual-band Wi-Fi (2.4GHz & 5GHz)

HD Audio
HD handset and speakerphone with support for wideband audio

Built-in Bluetooth
For syncing with mobile devices & connecting Bluetooth headsets

Camera
Tiltable mega-pixel CMOS Camera with privacy shutter

Incoming Call Lamp
Red & Green

Brilliant Display
7-inch capacitive 5-finger multi-touch

Main Menu Screen
Easy access to Dialer, Voicemail, Camera, Calculator, Apps & more

Available Side Ports
HDMI, SD Card, Headset & USB Ports

Power over Ethernet
Built-in PoE/PoE+ for power & network connection

Menu Bar
Easy access to Volume control, Home, Settings Menu & Back tabs

POPULAR USER ENVIRONMENTS

GT890 offers an all-in-one communications hub by combining an IP phone with a multi-platform video calling solution and the functionality of an Android tablet.
